

Jack Welter

725 E 48th Street, Savannah GA 31405 ♦ (847) 630-2120 ♦ jackjmwelter22@gmail.com

Education

Master of Business and Administration
Georgia Southern University, Savannah GA

GPA: 3.80

May 2017

Bachelors of Science Aerospace Engineering | Minor: Spanish
Purdue University, West Lafayette, IN

GPA: 3.52

December 2013

Experience

Gulfstream Aerospace Corporation, Savannah GA

February 2021 - Present

Group Head, Applied Aerodynamics

- Led a Team of High Performing Aerodynamic Engineers to Solve a Variety of Complex Problems Across all Aircraft Programs Including: G700, G800, G400, Sustaining, & Special Missions (C3D, Peregrine, NOAA, JCG, Jaguar)
- Managed Aerodynamics Schedule, Technical Risks, Priorities, and Resources to Support Company Objectives
- Developed Detailed Integrated Plans to Support Multiple Certification and Preliminary Projects
- Responsible for Staffing & Recruiting, Managing Team Priorities & Resources, and Developing Technical Capabilities
- Cultivated Future Talent Development through Management of Co-ops and Interns
- Strategically Balanced Team's Limited Resources to Accomplish Team and Department Goals
- Deeply Engaged in Multiple Aerodynamic Certification Tasks and Resolving Aerodynamic Issues Discovered in Test
- Ensured Effective Communication by Holding Weekly Team Meetings and 1 on 1 Sessions with Individuals
- Implemented AGILE Kanban to Effectively Manage Daily Tasks, Improve Team Productivity, and Identify Bottlenecks
- Utilized AGILE Scrum Sprints to Manage Critical Projects and Unplanned Work
- Promoted Team and Individual Development Through On-Site Training, Conference Attendance, and Mentorship Program
- Provided Timely Individual Performance Appraisals Through 1on1 and Yearly Reviews
- Worked Collaboratively Across IEF Departments and Teams to Solve Cross-Functional Issues

Gulfstream Aerospace Corporation, Savannah GA

February 2014 - February 2021

Applied Aerodynamics Engineer - Technical Specialist

Management & Leadership

- Managed FLC In-House Thrust Reverser Diagnostic Testing; Coordinated with Labs, Machine Shops, & International Partners
- Oversaw Multiple Drag Savings Design Improvement Projects for FLC to Meet Program Goals and Objectives
- Integrated with Other Engineering Groups to Drive Successful Implementation of Design Improvements on FLC
- Collaborated with Performance Engineering to Develop Accurate Range Predictions for G700 & G800
- Presented New Design Proposals, Analyses, and Work Statuses to Various Senior Leadership Members Including the President
- Presented Informational Forums on the GVI Critical Aerodynamic Components with Production, Systems, & Stress Engineering
- Continued Development & Learning; Elevate: Project Management, Analysis & Insights; Agile/Lean Management Training
- Optimized Winglet Design for Transonic Drag & Low-Speed, High-Lift Performance; Validated with Wind Tunnel Testing

Design, Analysis & Testing

- Developed Numerous Scripts and Automated Processes to Improve Analysis Efficiency and Consistency
- Performed Ice Shape Prediction CFD Analysis on Protected & Unprotected Surfaces to Support 14 CFR Part 25.1419 Certification
- Performed Specialized Powered Low Speed Thrust Reverser CFD Analysis to Develop S&C and Reingestion Design Mitigations
- Analyzed Radome Surface Deformations Matching 3D Contour Scan Data Effects on Altitude, Mach, & AoA Error in CFD
- Conducted CFD Analysis of Wing Twist Due to Aeroelastic Effects for Transonic Drag and High Lift Performance
- Developed and Analyzed Special Mission OML Configurations Consisting of Various Fairings and External Probes/Antennas
- Analyzed Flammable Fluids Flight Test Results of Legacy Aircraft to Develop a Certification Strategy for G700
- Supported Numerous Ground, Wind Tunnel, and Flight Testing From Design Development Through Certification

Production & Fleet Support

- Developed interdepartmental relationships with MRB and Service Engineering to Provide Production & Fleet Support

Co-op, **Gulfstream Aerospace**, Applied Aerodynamics - Aerodynamics Engineer

Summer 2013

Co-op, **Gulfstream Aerospace**, Flight Dynamics - Stability and Control Engineer

Summer 2012

Co-op, **Gulfstream Aerospace**, Human Factors Engineer - System Integration Engineer

Fall 2011

Intern, **Flying Aces Technology Inc.**, Quality Assurance Analyst

Summer 2011

Co-op, **Gulfstream Aerospace**, Production Engineering - Production Engineer

Spring 2011

Skills

Software - MS Office Suite, MS Project, PowerBI, PowerAutomate, EVMS, 6 Sigma Yellow Belt

Coding - Python, MATLAB, FORTRAN, Java, html, C/C++, xml, Bash, MPI, R, JSON, Excel VBA

Misc - Various CFD & Meshing Software, CATIA, SmarTeam, Tecplot, Unix/Linux, Rhino 3D, IADS, DOORS, Ensight, HPC, Solumina
